## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to a method for manipulating electronic receipt data, classified in class 705, subclass 26.
- II. Claim 9-13, drawn to a method of purchasing goods from a plurality of merchants via various websites, classified in class 705, subclass 26.

Inventions of Group I and Group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case Group I refers to a method for creating a list of items for use in future transactions while Group II refers to a method of purchasing goods over the Internet from different merchants. Group II does not recite anything relating to the maintenance and usage of electronic receipts.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Attempts to reach the applicant for election by telephone were unsuccessful.
